

# EXCAVATOR MAGNET

## *Hydraulic magnet with Teeth*

1. Applicable for handling of all sorts of ferromagnetic materials.
2. Hydraulic generators mounted on the top of the magnet, no additional powerpack and control panel.
3. Best for scrap recycling, rebar sorting in demolition.
4. Simple hydraulic interface, no drain hose and activation switch.

Model	Unit	M800	M1000	M1200	M1300
Excavator	Ton	10~18	10~18	20~35	25~40
Power	Kw	10	10	15	15
Dimension	D, mm	800	1000	1200	1300
	H, mm	940	940	1107	1107
Flow	Lpm	50~100	90~110	130~170	200~250
Pressure	Bar	180	190	210	250
Capacity	Plate/block, kg	450	6500	8000	8500
	Casting/ingot, kg	600	1200	1300	1400
	Scrap, kg	250	460	600	700
Weight	kg	850	1300	2100	2400
